- Completely effective when Total coverage is achieved

Who we are

At ORGANIC EARTH SYSTEMS™, our mission is simple: to provide high quality nontoxic fertilizers.

The origins and foundations of OES™ are crop and livestock production. However, because of our core goal - to provide consumers with safe, nutritious, and affordable food - OES™ offers services to the other sectors of the Agriculture industries yet focuses on the same core goals -- to decrease chemical dependency, to diminish the need for genetic manipulations, to preserve the family farm, and ultimately to provide a nutritious, high-quality, affordable food source to consumers.
